Activity Overview

Investigation and Cleanup

Brownfields - VP11810 - Voluntary Investigation and Cleanup

AA Battery Co

Status: Inactive

Brownfields are potentially contaminated sites where the MPCA is helping buyers, sellers, developers or local governments to voluntarily investigate and clean up land for sale, financing or redevelopment. Sites may be petroleum brownfields, non-petroleum brownfields, or both. Non-petroleum brownfields are called Voluntary Investigation and Cleanup sites.

## CERCLIS Site - MND022869846

AA Battery Co

**Status:** Inactive

CERCLIS sites are places that are listed in the federal Comprehensive Environmental Response, Compensation and Liability Information System. This means that they are or were suspected of being contaminated. After CERCLIS sites are investigated, they may be elevated to state or federal Superfund lists, or it may be determined that no action is necessary.

## Site Assessment - SA0002003

AA Battery Co

**Status:** Inactive

State Assessment sites are places the MPCA has investigated due to suspected contamination. They are assessed to determine if they pose a risk to human health or the environment. If so, they are referred to a cleanup program.

## Superfund - SR0001023 - Superfund Program Non-listed Sites

AA Battery Co

**Status:** Inactive

Superfund program non-listed sites are properties with identified releases of hazardous substances and are actively managed by Superfund program staff. Some of these sites may be pending listing on the Minnesota Permanent List of Priorities (the State Superfund list) and/or the National Priority List (the Federal Superfund list), and some voluntary sites forego listing but are required to meet all investigation and cleanup criteria of State Superfund sites.
